The goods and services shown below are those we can provide to our customers. You may choose only the items you desire. However, any cremation arrangements you select will include a charge for our basic services and overhead. If legal or other requirements mean you must buy any items you did not specifically ask for, we will explain the reason in writing on the statement we provide describing the funeral goods and services you selected

Embalming is not required by law. Embalming may be necessary, however, if you select certain funeral arrangements, such as a funeral with viewing. If you do not want embalming, in some cases the remains may be made presentable by refrigeration and a skilled funeral professional on a case by case basis. Items not included in our price and any additional items such as urn selection, boat services, out of area shipment of remains, coroner fees, state fees, obituary notices and certified copied of the death certificates.

Prior to drafting any contract for goods or services, the responsible party or the decedent's survivor who is handling the funeral arrangements is entitled to receive a copy of any preneed agreement in the possession of the funeral establishment that has been signed and paid for in full or in part, by or on behalf of the decedent.
